Prompt Power Pack: 200+ Marketing Prompts

Subtitle

A categorized swipe file of practical prompts for content, sales, email, social media, lead generation, research, and faster day-to-day marketing work.

How to use this pack

Do not try to use all of these at once.

Use this like a prompt library.

Best approach:

1. pick the category that matches the task
2. paste the prompt into your AI tool
3. customize the bracketed inputs
4. save the prompts that produce strong outputs
5. refine the winners over time

1. CONTENT CREATION PROMPTS

1. Give me 20 content ideas for [audience] around [topic]. Make them specific, useful, and relevant to current buyer problems.
2. Turn this broad topic into 15 stronger angle ideas for posts, emails, or short-form content: [topic].
3. Create 10 contrarian content angles about [topic] that still feel believable and practical.
4. Write 15 educational post ideas for [audience] that naturally lead toward [offer].
5. Give me 10 "mistake" style content ideas related to [topic].
6. Give me 10 "how to" content ideas related to [topic] for [audience].
7. Turn this idea into a clear content outline with 5 main points: [idea].
8. Write a first draft of a short educational post about [topic] in a practical, non-hypey tone.
9. Rewrite this draft so it is easier to skim, stronger at the opening, and more specific: [paste draft].
10. Turn this content idea into 5 versions for different awareness levels: unaware, problem-aware, solution-aware, product-aware, and ready-to-buy.
11. Write a post that explains [topic] using simple language and one concrete example.
12. Write a step-by-step explainer post about [process] for [audience].
13. Turn these messy notes into a clean content draft: [paste notes].
14. Give me 10 story-led content hooks related to [topic] without sounding fake or dramatic.
15. Write a short myth-vs-reality style post about [topic].
16. Create a content piece that starts with a strong pain point and ends with one practical takeaway about [topic].
17. Write a "what I would do if I had to start over" post for [topic].
18. Turn this lesson into 5 teachable content angles: [lesson].
19. Write a short opinion-led post about [topic] that sounds confident but not arrogant.

Suggested way to save your best prompts

When one of these prompts works well, save:

- the original prompt
- the improved version
- the output type it produced best
- a short note explaining when to reuse it

That is how a prompt pack turns into a real reusable system instead of a random list.

Final note

The goal is not to collect prompts.

The goal is to keep the prompts that reliably help you move faster, think better, and produce stronger work.

Use this pack as a starting point.

Refine the winners.

Archive the weak ones.

Keep building your own library from what actually works.
